

NEW PRODUCT RELEASE

Ultra-1000 Containment Sump

New, **Ultra-1000 Containment Sump** captures spills and leaks from 1000 gallon fuel and oil tanks. The large, 1100-gallon capacity meets Stormwater, SPCC and EPA Containment Regulations. Rugged, all-polyethylene construction will not rust or corrode. Available with or without drain fittings.

Use with optional Ultra-Self Bailer for outdoor containment. Self Bailer allows stormwater to passively drain from sump while capturing hydrocarbons.
