

## NEW PRODUCT RELEASE

RESPOND TO SPILLS QUICKLY BEFORE THEY CAN GO DOWN THE DRAIN

New Ultra-Drain Seals and Drain Seal Wall Mounts allow quick response to spilled chemicals and liquids. The Ultra-Drain Seals are molded with a reinforcing mesh between layers of polyurethane. Low cost, durable units are far more tear-resistant than competitive products. Unique, urethane construction allows the pad to deform and seal off most drains on contact. Available in many sizes and shapes to fit almost any drain. Ultra-Drain Seal Wall Mounts are constructed of rugged polypropylene. Non-slip handle and lightweight design makes unit easy to manage. Cap is kept secure with Velcro fasteners but quickly removed when necessary. Ultra-Drain Seals and Wall Mounts are a valuable addition to any emergency response plan, spill kit or Stormwater Management Program.
